Chamois hunting in Romania 2024  
Territory: Southern Carpathians

**Location and description of the district:** One of the best areas for hunting large chamois are the valleys around the highest mountain of the Fogarasi Mountains in the Southern Carpathians. These massifs are only about 2,500 metres high, but steep and rugged. The quality of the Carpathian trophies are generally 10 to 25 points higher than in our Alps. Officially, the hunting for chamois begins in mid-September, but the best trophies are always taken between 15 October and 15 November. Choose the date and prepare yourself for the mountain hunt in a
