Fallow deer hunting in Slovakia 2024

### Itinerary:

Upon arrival at the airport, you will be met by our partner and driven to your accommodation. The best alternative is BUDAPEST airport, from there it is on average about 1.5 hours by car to the various hunting areas. Of course, you can also arrive by car and drive directly to your accommodation in the hunting ground. We will welcome you and you will then move into your accommodation. The lodge is located directly in the hunting area or alternatively the hotel, which is in the immediate vicinity of the hunting ground.

If you arrive at your accommodation early in the day, it is possible to start hunting on the first day. After that, 3 days of fallow deer hunting are planned. During the rut, you will hunt from morning until midday and in the afternoon until dark. On the last day we will pick you up at your accommodation and take you to the airport or see you off at the hunting lodge/hotel if you are leaving by car. The last morning can of course also be used for hunting if this fits in with the flight times.

### Fallow deer hunting with settlement according to the 2024 shooting price list

3 hunting days - 4 nights in a double room with breakfast, snacks and drinks during the hunt, English interpreter, Slovak hunting license, 1:1 stalking guide, 1 x trophy preparation, all transport in the hunting ground

• Accommodation costs for non-hunting accompanying person in double room per day €		150,00
• Handling fee	€	195,00
• Trophy preparation	€	100,00

### Hunting procedure:

The best time to hunt fallow deer is in October during the rut. We have numerous rutting grounds in all our fallow deer hunting grounds where we can stalk the fallow deer. If you wish, you can also sit there. During the rut, the fallow deer will set up their rut in a clearly laid out place. It prepares a shallow hollow which it marks with its urine. It then vigorously opens up the hollow and rolls around intensively there. This small territory will be vehemently defended against other deer in the days and other deer. These hollows are often very close together, which regularly leads to fierce fights between the fallow deer. This is a unique and wonderful experience to observe. The hunters start their hunt early in the morning, while it is still dark. This gives you the best chances of hunting old and big fallow deer.

Our hunting areas are known for strong fallow deer and the population in the hunting grounds is very high, so the rut lasts all day. Hunters will see plenty of fallow deer during the trip. Our professional hunters have a great deal of experience in targeting stags and can therefore ensure that the strength of the trophy and the age of the stag match their expectations. Every year in some of our hunting grounds we have confirmed a few truly exceptional stags weighing 4 kg+. Stags weighing 5 kg have also been taken, but this requires not only optimum grazing and habitat conditions in the hunting grounds, hunting skills and, of course, a pinch of luck. There are also numerous abnormal, white and black fallow deer in our hunting grounds, which you can also shoot.

### **Our accommodation and catering:**

During the hunting trip, the hunters are accommodated directly in the hunting area (lodge) or in its vicinity (hotel/guesthouse). The guesthouse or hotel is located approx. 10 minutes by car from the hunting ground. The hotel has its own restaurant. In the accommodation, hunters can recharge their batteries for the next hunt between stalks and enjoy a convivial get-together. Our

Hunting lodges are located in the hunting area and are particularly suitable for larger groups of hunters (4-8). The hunting lodges have toilets, bathrooms, a lounge, single rooms and some of them even have a jacuzzi. Due to the fact that we have different accommodation options, we can adapt the accommodation to the needs of the hunters.

Breakfast is already included in the price and other meals can be ordered à la carte in the restaurant. If hunters are staying in one of our luxury hunting cabins, they can either cook for themselves or order full board (4 meals a day) from our private chef, who prepares delicious specialties such as venison steaks, burgers, baked wild boar ribs, venison goulash soup,

grilled venison, etc. As an extra bonus, there is a traditional wine tasting for our hunters and for larger groups we have prepared a barrel of beer directly in the hunting lodge. A limited amount of alcoholic beverages is included in the full board.
