Day 4 Drive back and depart from Innsbruck

Deep in the heart of the Austrian Alps lies the **Swarovski Optik Hunting Estate** in the Hintertal — a pristine, privately managed mountain territory within the Karwendel Nature Park, one of Europe’s last true wilderness areas. This exceptional hunting opportunity is available only to a very limited number of international hunters each year. Spanning nearly 25,000 acres of untouched alpine terrain, this historic estate has been stewarded for decades with the highest respect for tradition, sustainability, and ethical hunting. Access to this ground is strictly limited, making each hunt a rare privilege rather than a commercial experience.

**Rare Access:** Hunting opportunities are reserved for select guests only — this is not a destination open to the general market.

**Elite Alpine Game:** The area is renowned for its strong, healthy Alpine Chamois population, pursued in classic

high-mountain conditions that demand skill, endurance, and experience.

**Unmatched Setting:** Rugged peaks, remote valleys, and absolute tranquility create a hunting environment few have ever witnessed.

**Tradition Meets Precision:** Guided 1:1 by professional Austrian hunters, following time-honored alpine hunting customs.

**Exclusive Comfort:** Guests stay at the private „Jagdhaus Hubertus“, combining authentic alpine character with refined comfort in the heart of the hunting grounds.

This is a hunt for discerning sportsmen who value authenticity over volume, tradition over trends, and access that cannot be bought — only earned.

Join Westfalia Jagdreisen GmbH for an extraordinary alpine hunting experience that remains inaccessible to most, and unforgettable to those few who are invited.
