Red Deer Hunting in Slovakia 2024

Size and nature of the territory:

On arrival at the airport, you will be met by our partner and driven to your accommodation. The best alternative is the airport in BUDAPEST, from there it is on average approx. 1.5 hours to the various hunting areas. You can of course also travel by car and drive directly to your accommodation in the hunting ground. You will be met there and then move into your accommodation. The lodge is located directly in the hunting area or alternatively the hotel, which is in the immediate vicinity of the hunting ground.

If you arrive at your accommodation early in the day, it is possible to start hunting on the very first day. After that, 3 days of hunting red deer are planned. During the rut we hunt from morning to midday and in the afternoon until dark. On the last day we will pick you up at your accommodation and take you to the airport or see you off at the hunting lodge/hotel if you are leaving by car. The last morning can of course also be used for hunting if this fits in with the flight times.

Procedure of the hunt::

Hunting red deer during the rutting season is every hunter's favourite hunting experience. The rutting season is something very special and every hunter gets goose bumps just dreaming of roaring stags. Especially in our hunting grounds, where the number of red deer is very good. The rut is very pronounced in our area, mainly due to strict game management and a perfect ratio between the red deer and the stags, which is why you can hear the red deer roaring all day long. At the rutting grounds, you will experience the battles for the red deer, between the top stags and the rivals, at close quarters experience.

When the right stag comes into range, and you and the hunter have both recognised it as ripe, the stag can be shot by you. The hunting day starts early in the morning, but the hunt itself only takes place in the best light. It is our principle that every hunter should clearly approach his stag before he shoots it. The hunt therefore takes place mainly throughout the day, with a break for lunch and ends in the evening before dark. 24 hours after a successful hunt, we weigh the trophies of the deer after boiling, in dry condition, so that the hunter only pays the net weight of the trophy.

Our accommodation and catering

During the hunting trip, the hunters are accommodated directly in the hunting ground (lodge) or in its vicinity (hotel/guesthouse). The guesthouse or hotel is located approx. 10 minutes by car from the hunting ground and has its own restaurant. In the accommodation, the hunters can recharge their batteries for the next hunt between stalks and socialise with each other.

Our hunting lodges are located in the hunting area and are particularly suitable for larger groups of hunters (4-8). The hunting lodges have toilets, bathrooms, a lounge, single rooms and some even have a jacuzzi. Due to the fact that we have different accommodation options, we can customise the accommodation to the needs of the hunters.

Breakfast is already included in the price and other meals can be ordered à la carte in the restaurant. If hunters are staying in one of our luxury hunting lodges, they can either cook for themselves or order full board (4 meals a day) from our private chef, who prepares delicious specialities such as venison steaks, burgers, baked wild boar ribs, venison goulash soup,

grilled venison, etc. As an extra bonus there is a traditional wine tasting for our hunters and for larger groups we have prepared a barrel of beer directly in the hunting lodge. A limited amount of alcoholic beverages is included in the full board.
